storosulei. Their liabilities are not known,

NOTES OF THE WEEK

gar Schooner Boganza will be due on the 30th with S. F. dates to Dec. 16. THE D. C. MURRAY:-This back sailed from San Francisco on Sanday, the 20th nit., making her out twenty-four days to-day. She ought to drift in

some time before Sunday.

BOT A Christmas service will be held at the Bethel on Sanday next, consisting chiefly of Christmus Carole and songs with a short address by the Pastor. All are invited. Tennesare Leve.-It is announced among the

news items of the Secremento Union that a telegraph cable is soon to be laid between the San Diego and China, via Bunolulu, Bostu Islands and GOVERSOR OF MAUL-His Excellence W. L. Mochours late Minister of Interior has received the appointment of the governorship or Mani and adjacent

slands vice His Ex. J. M. Kapens resigned. He left on Monday on the steamer Kilanen for his new Les Mr Reiche informs us that his school-rohaving become to small, he has transferred his school to the corner on the south-west corner of Alakes and Butel Streets, lately occupied by Mr.

Berger. He intends to begin the next term on Janmary 8th, and will, if parents desire, prepare pupils to enter Oaks College. lonant Contage.-To-morrow evening at seven "clock there will be recitations at this College by the pupils, and also singing of carols and other pieces. In addition to this the results of the an must examinations will be ansounced, and the

priors awarded. The friends and parents of the scholars and all leberested in church progress are invited to be present. Freen.-The Captain of the barkentine Discovers was fixed In the Police Court, last week, in the sum of \$250 for his alleged connection with the attempt to smuggle opium, mentioned by us last week. The steward of the vessel was also fixed \$300, and the cook \$100. The opium which was

sented amounted to forty pounds, and was worth

here at \$40 per pound, which is its present quota-

tion, \$1600. As Christmas approaches, the stores where boliday gifts are kept are the centres of attraction and we are safe in saying that Honolulu has never been so abundantly supplied with material to gratify those looking for presents, as it has this year. Thuse who select articles of permanent value and such as prove useful to the recipients, make the wisest choice, and these prove to be the cheat-

Mour Lanon.-The ship Angle Saxon arrived on Saturday last, 50 days from Hongkong, bringing two hundred and seventy-four Chinese limiterants subriren of whom are women. Mr. Asiu, who procured this lot of Celestials, was bound by the terms of his contract with the Board of Immigration to bring at least one-third of the softer sex, but he found it impossible to induce any more than the baker's dozen above mentioned to *crompuny blm.

The training ship Jamestown left San Franrisco for this port on the 10th last. for the purpose of affording the boys the benefits of another searuyage. Commander Glass, who became so fevorably known here during the stay of the Jamestown is our harbor a few months ago, is still in command of the ship. She will probably arrive here in the course of the coming week.

At the Regular Assembly of Honolulu Comndery No 1, K.T. beld on Thursday Evening, Dec. 14, 1876. The following officers were elected for

the ensping pear: Em. Com. Sr. A. McDuff; Genl. Geo. Williams; Capt. Genl. H. J. Nolte; Prelate, A. Mackintosh Sen. Warden, G. West; True Warden, W. P. Leieloboku; Treasurer, J. S. Walker; Recorder, J. B. Peterson: Standard Bearer, B. Whitney; Sword Bearer, D. Dayton ; Warder, E. B. Freil.

THE QUICKEST YET.-The S.S. Australia made the passage from Hosolulu to San Francisco In seven days and nine hours, via: Left Honolute 5 p. m. Thursday, Nov. 7, and took the pilot off San Francisco at 12 o'clock midnight of Wednesday, Nov. 14-seven days and nine hours. On the return trip, she left San Francisco at 9 a. m. Thursday, Dec. 7, and took the pilot at 7 p. m. Thursday Doc. 14-seven days and ten and a half hours. The pilot would have boarded her here at 6 p. m. had

Some Science States of the State Sta workmanship. An "automatic crystal fountsin" which he imported by the last steamer, and which is constantly playing in his show window is a beau tiful oreament, and on account of its mysterious action excites general wooder and surprise. The actuating power is said to be a simple law of bydrostatics practically applied, but we must confess that we have not yet been able to comprehend it. Perhaps some one of the students of Natural Philosophy at Panshou can send us an explantation of

> Pall Road.-Mr. G. W. Brown, Civil Engineer, has devoted considerable attention to the Pall of late, and after careful measurements and estimates, has come to the conclusion that the construction of a good cart road, or even of a tramway, is perfectly reasible, by means of which all the sugar, rice, bananas, and other produce of Koolau may be brought into town more expeditiously and much exper than by salling vessels as at present. He has made an offer to the Government to perform this work for the very reasonable sum of \$42.500. with sufficient guarantees for its completion within two years. It the Government does not desire to engage to it, may it not present a promising field for private enterprise? Probably a company with the franchise of collecting toll on the road for a term of years might make of it a profitable investment. That it would be instrumental in largely and rapidly developing the industrial interests the whole of the Koolsu side of the Island, and in causing an extensive appreciation of values in that region, there cannot be the slightest doubt.

NATIONAL SCRUET.-From the Chief of the Gov. ernment surveying corps we learn that during the past week some very satisfactory work has been done by means of heliotrope signalling, in connecting the surveys of Hawaii and Mani. Professor Alexander, from the summit of Haleakala observed make during several days of beautifully clear weather with which they were favored, the tiny but brilliant flashes of light from the instrument sixty miles away on the Kohala monutains in the hands of Mr. Lyons, and at the same time Mr. Monsaratt from the beights of the island of Lanai was flashing to 2,480.00 the same central point the locality of another station of the great triangle. Since the above was written we have received the following communi tion on the same interesting subject from a member of the corps.

Makawan, Dec. 18th, 1876. To the Editor of the Hamalian Gazette: Duan Stu,-Last week, one of the most interesting feats in connection with the survey of the Islands was accomplished by 'the Government sur autioned on the summit of Haicakala. The feat allinded to was the measurement of one of the angles of the large triangle formed by points on the islands of Mani, Hawall, and Lanal, being the numer same largest of the so called "primary-triangles," and resenting considerable difficulty from the extreme length of the sides. By means of heliotropes or re-Secting signals directed by skillful assistants on Hawaii and Land, the sun's rays were made to Hawaii and Lanni, the sun's rays were made to serve a meeful purpose, and emabled the signals to be seen across the wide channels, like twickling stars of the fourth magnitude. The lines of sight were of sixty and forty miles in length respectively, and were taken above the chouds, that for most of the time shat out the view of all beneath them. The importance of this step in an extended survey of the islands can not be over estimated and will be appreciated by all who give consideration to such a subjects.

Yours &c. BALBAKALA.

H. R. M. S. FANTOME.-This vessel returned or Saturday last from the windward islands where she has been for the last few weeks. The most of the time has been spent at Kcalakekua Bay, where Cook's monument has been enclosed in a most substantial manner with a fence composed of ten-foot guns and a chain cable.

ACCIDENT TO THE AUSTRALIA. -Shortly after nine o'clock on Wednesday morning the 13th inst. as the stramer Australia was passing along the San Francisco city-front preparatory to leaving port for these Islands, she was run into by the ferry-boat Capital which was steaming at great speed, being rurared in a reprehensible race across from Oakland with the ferry-boat Alameda. The Australia, whose plint had seeen the ferry boat approaching, and which at the time of the collision was bucking with all possible speed, was struck by the solid bow of the Capital about fifteen feet abaft the stem bending in, and causing a break in the starboard how above the water line the length of twelve feet, Had not the Australia backed promptly as she did, she would have been struck amidsgips and probably sunk on the spot with more or less less of life. 'She returned to her dock, and her repairs having been completed with twenty-four hours, she was enabled to start again on Thursday at nine o'clock.

Dated this 19th December, 1876.

MANUEL PAIRO. Executor of the estate of said Antone Man

Latest Foreign News.

The P. M. S. S. Australia which arrived on Thurs day evening the 14th inst. seven days and ten hours from San Francisco, brought two weeks later dates. The Time says: Fire Marshal Kendy, who has made an enhanstive examination of the circum-stances attending the fire, is of the opinion that at least 350 persons perished in the flames.

Yell & Francis' distillery, at Peoria, DL, was burned un December 5th. Loss, \$65,000; insurance about \$20,000. The amount of bullion withdrawn from the Bank

It is rumored that Gortschakoff, the Russian Pre-It is removed that cortecnacon, the Austan Fre-mier, has addressed a circular to the Powers, de claring that if the Powers propose at the Conference other guarantees than the occupation of Turkish ter-ritory, Russia will accept them.

J. H. Katplemen's farniture store, Sr Louis, was burned on December 6th. Lose, \$40,000 ; insured. Roumania is making warlike preparations. Austria has concluded a loan of 50,000,000 forins.

An Inter-Ocean's New Orleans special says : The

There is a revival in the English trade.

House's action to despatching a Committee here provokes angry Democratic comment, and embarasses the White League in any attempt at insurrection. A wanton and disciplined force, boaring of 15,000 rifler, stung at the Democratic defeat, are here and in South Carolina, and for a fortnight have been loud it threats. This is a dangerous element, which may mass at any moment on the streets. We are standing on a volcano. Concentrated assaults by armed bodies may give way to private assaulanation. Many warnings have already been conveyed. It was openly declared on Corondoles street that Packard would not be delive accommand by a regiment of troops not be daily accompanied by a regiment of troops from his residence to the State House, and would get and early bullet. More immediate danger threatens the members of the Returning Board, and the sudlen death of two or more need not surprise you."

The visiting Democrats to-day issued an address to S. J. Randall and the House of Representatives, saying that they have the grief of seeing the Tilden Electure, who were chosen, counted out, and the Becters, who were chosen, counted out, and the Hayes Electors counted in. They densunce this as a neerted fraus, well promulgated and underst at the polis and finally by the Returning Board. They say it is manifest, first, that Tilden had a majority of all the votes cast; second, the Tilden Electurs had a majority over and above the Radical count, after fraudulent votes had increased it; third, that the majority declared for Hayes is fictitious, fraudulent and manufactured, and a flagrant violation of the The tion of law. The Board were shameless enough not to conceal their swindle. Congress must determine whether this assault upon the rights and liberties of fracmen protected by the Federal Administration hitherto, shall be crumed at the Capitol. They present a sad picture of corruption and distress under carpet-bar rule in Florida.
